REPORT ON FEEDBACK ANALYSIS -2020-21

Feedback is an essential element of the learning process. The campus collects the feedback on various curriculum aspects and courses from different stakeholders such as the students, alumni, Faculty and Parents using structured proforma through online. The feedback collected from the individuals has been analyzed and taken to the consideration for the development of curriculum, teaching learning process and environment.

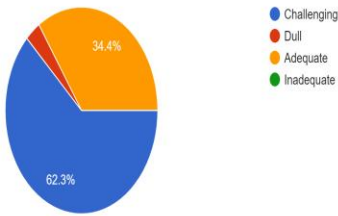

**Feedback from Students:**

The campus has a structured proforma for obtaining feedback from the primary stakeholder i.e. students. The Students' Feedback on curriculum and teaching learning process at K.J.Somaiya premise is designed to get formative feedback from students that can be used towards the improvements in the quality of course design and delivery, as well as student learning experiences. For the academic year 2020-2021, students' feedback is sought from around 61 students about the curriculum and teaching learning process. Majority of the student population(62.3%) agreed that the syllabus is very much challenging and the allocation of credits is appropriate in relation to the level of course work. Majority of the students (78.7%) agreed teachers complete the entire syllabus in time and teachers discuss and interact the topics (65%). It is observed that 50% of the respondents agreed that the internal assignment process is fair and unbiased. The students' feedback revealed that 50% of them agreed that office staff are very much cooperative and helpful and 60% agreed that library facilities are adequate. Also, majority of students (50%) agreed that the laboratory experiences and practical exposure given to them enhanced their understanding of the concepts and enable them to relate theoretical components to practice.

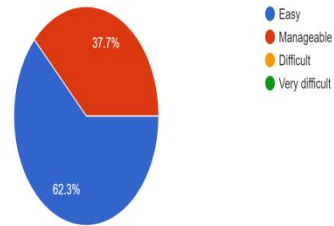

**Feedback analysis report**

- The analysis of the students' feedback clearly depicts that they are well satisfied with the curriculum development, revision and evaluation and teachers punctuality.
- The students highly appreciated the academic related infrastructural facilities such as library, laboratories, playground and other facilities.
- It is observed from the students' feedback that few of them expressed the need of more ICT facilities.
